

USEFUL FACTS

Masks are recommended as a simple barrier to help prevent respiratory droplets from traveling into the air and onto other people when the person wearing the mask coughs, sneezes, talks, or raises their voice.

Coronaviruses are a large family of viruses that may cause illness in animals or humans.

It is possible to get the flu and coronavirus at the same time. Health experts are studying how common this can be.

Dr. Anthony Fauci says experts will know by the end of November, beginning of December whether a coronavirus vaccine is safe and effective.

COVID-19 WEEKLY UPDATE

FOR THE WEEK OF 10/25/2020

MILWAUKEE UPDATES

Statistics

- Total confirmed cases in Milwaukee County: 39,001
- Total confirmed deaths in Milwaukee County: 472
- Milwaukee County has the highest number of deaths of all counties.

WISCONSIN UPDATES

Statistics

- As of October 25th, 2020, Wisconsin set another record for the most people hospitalized at once with COVID-19.
- Out of the 1,469 ICU beds available throughout the state, 212 were open this past Sunday.
- As of October 21st, 2020, COVID-19 cases among American Indians in Wisconsin have tripled since September 1st, 2020.

Gatherings Mandate

- On October 23rd, 2020, a Wisconsin appeals court temporarily blocked Governor Evers' restrictions on indoor public gatherings.
- This has been going back and forth between the courts and Evers for weeks now.

“The numbers are outrageous,” said Shannon Holsey, president of the Stockbridge-Munsee Mohican Tribe.

NATIONAL UPDATES

- As of October 23rd, 2020, the U.S. hit an all-time high in new coronavirus cases.
- COVID-19 hospitalizations are soaring across the country.
- There is no national lockdown or quarantine. States and cities are responsible for announcing curfews, shelters in place, or other restrictions and safety measures.
